Dr. Radu Adrian Mlesnita
Cluster Manager
TransilvaniaLifeStyle@gmail.com

We are an innovative cluster with over fifty associated companies on the supply and value chain from the plants – to – cosmetic products, marketing, logistics, packaging, tests & analysis, finished goods, distribution, promotion.

Our companies are producing plants, natural cosmetics and pharmaceutical products. They collaborate with our university and research centers from the region of Transilvania.

We offer:

- raw materials-plants, natural products from medicinal plants, either as pure compounds or as standardized extracts,
- testing-and-validation,
- join research for new products,
- marketing, promotion and sells to our regional and national market

We are looking for:

- partnership
- projects design and implementation under EU Consortiums
- third market cooperation
